For successfully completing all the requirements
of the Level One ANS International Yoga Teacher Training (240 hours)

"We are an international school for personal transformation and spiritual development. We research and renew the tools, the learning methods, offering access to the traditional path of Mastery in the Aquarian Age. We welcome the transformation through experience, with the support and love of mentors. The whole community network is dedicated to the Great Awakening of Humanity; may each one discover and deliver their Soul's purpose. Together, as a community, may we manifest the new."
